Total revenues at 30 June 2019 stood at €567.1 million, which is 5.2% lower than the figure obtained in the same period of 2018. This decrease is due to the lower contribution from regulated revenues, and a non-recurring billing of €12 million recognised as non-regulated income in 2018.

Operating expenses

Operating expenses at the end of 1H2019 were - \in 160.2 million, slightly lower than the figures reported in the same period of the previous year (- \in 172.8 million). This **-7.3% decrease** is mainly due to the application of IFRS 16, which decreased operating expenses by \in 16.5 million.

EBITDA

EBITDA at 30 June 2019 stood at €487.0 million.

At 30 June 2019, result from affiliates was €80.2 million, including the stake in GNL Quintero reported under the equity method, Tallgrass' contribution since 1st April 2019 and the positive impact on the purchase of Desfa in December 2018.

As of 30 June 2019, this increase was mainly due to the application of IFRS 16 of €3 million and the financial expenses associated with the debt issued for the acquisition of Tallgrass for €4.7 million.

Net profit

Net profit at 30 June 2019 stood at €216.1 million, in line with the net profit amount from the same period in the previous year.

OPERATING HIGHLIGHTS

Demand

In the first half of 2019 the record for natural gas demand was reached since 2010 (195.5TWh), +9.4% higher than the reported at the end of the first half of 2018.

The industrial demand reported +3.8% increase compared to the same period in 2018, reaching 110TWh. It is the highest value since historical data is available and is mainly due to the incorporation of new customers and the positive performance of the Spanish economy.

Natural gas demand for power generation increased by **+65.7%** due to lower hydropower generation and the decrease in the coal used in 1H2019, which has led natural gas to gain space to coal in the thermal gap.

From 2018 onwards, the gas system has a net annual surplus due to the good evolution of the natural gas demand and it is expected that the debt will be repaid earlier than previously estimated.
