Highlights

- Net profit to 30 June 2016 has increased by 0.5% year-on-year to €214.2 Mn, with a contribution from affiliates of 12.3% compared with 11.4% in the first half of 2015.
- FFO (Funds from Operations) amounted to €414.3 Mn, up 3.7% compared with the same period in 2015.
- **Investments** in the six-month period totalled to **€193.1 Mn,** of which €30.1 Mn has been invested in Spain and €163.0 Mn, abroad.
- Enagás successfully carried out a €750 Mn bond issue, offering one of the lowest coupons of any Spanish issuer or European utilities issuer for 12-year paper. The transaction enabled us to extend the average maturity of our debt to 7.3 years and optimise the maturity profile.
- Net financial debt at the end of the first half stood at €4,041.2 Mn, implying an FFO (last 12 months)/Net Debt ratio of 17.6%.
- The average net cost of debt at 30 June 2016 was 2.3%, far lower than the figure of 3.0% at the end of the first half of 2015.
- On 5 July, the Company paid a **final gross dividend for 2015 of €0.79 per share**. This payment brings the total annual gross dividend payment charged to 2015 profit to €1.32 per share.
- **Domestic gas demand** totalled 158.9 TWh, **down 1.3%** compared with the same period last year.
- Thanks to **our commitment to sustainability**, reinforced with our strategy, as well as to innovation and continuous improvement in all operations, **Enagás is the industry leader in the main sustainability indices (e.g Global100, DJSI).**

Operating revenues

Total revenues in the first half of 2016 amounted to €606.5 Mn, in line with the year-earlier figure.

It is important to note that regulated revenues for 2016 include the update for the higher remuneration of GTS in line with Ministerial Order IET 2736/2015.

Operating Expenses

Enagás' operating expenses rose 10.8% compared with the first half of last year.

This increase is largely due to higher personnel expenses stemming from the impact of the annualisation of personnel contracting in 2015, a consequence of the company's international expansion, and the change in timing for recognition of other operating expenses compared with the first half of 2015.

EBITDA in the first six months of the year amounted to €440.0 Mn, down 4.1% year-on-year, mainly due to the aforementioned impacts. EBITDA at 30 June 2016 leaves the company on track to deliver the announced FY 2016 target (of around €880 Mn).

Depreciation and amortisation charges

D&A fell 6.4% to €137.5 Mn.

As a result, **EBIT** at 30 June amounted to **€302.6 Mn**, down **3.0%** year-on-year.

Financial Result

The **financial result** was **-€49.4 Mn** for the first half of 2016 compared with **-€47.1Mn** in the same period of 2015.

Although **the financial result associated with debt** improved as a result of a fall in the financial cost between both periods (2.3% at 30 June 2016 vs 3.0% at 30 June 2015), the net financial result worsened as a result of one-off factors in the period.

Net result from equity affiliates

Results from equity affiliates in the first half of the year increased by **8.2% year-on-year**, from €24.3 Mn to €26.3 Mn, mainly due to the contribution of the 30% stake in Saggas, the additional 10% of BBG, Swedegas (following their inclusion in the second quarter of 2015) and the additional 1.64% stake in TgP.

The contribution to results of the brownfield projects (BBG, Saggas, GNL Quintero, Altamira, TgP, COGA and Swedegas) was €31.1 Mn, which, adjusted for the amortisation of the purchase price allocation (PPA) resulted in a positive net contribution of €20.3 Mn.

It should also be noted that the net result from equity affiliates cannot be extrapolated to the rest of year due to the contribution of greenfield projects (mainly TAP and GSP), whose results are linked to the stage of the project.

Corporate tax

The corporate tax rate this year has been reduced to **25% from 28%** in 2015, in line with the fiscal reform published in 2014.

Net profit

Net profit in 1H16 amounted to **€214.2Mn, up 0.5%** from **€**213.1Mn at 30 June 2015.

Funds From Operations

FFO (Funds from Operations) in the first half of 2016 amounted to €414.3 Mn, up 3.7% compared with the same period of 2015.

We would highlight the **contribution of dividends from affiliates**, which at 30 June 2016 amounted to €49.6 Mn, compared to €15.7 Mn at 30 June 2015; i.e. an **increase of 215.9%**.

In addition, our affiliates in Latin America are not affected by the depreciation of local currencies since these companies are completely dollarised (investment, revenues and dividends in USD).

Investments

Investments at 30 June 2016 amounted to **€193.1 Mn,** of which €30.1 Mn were invested in Spain and €163.0 Mn abroad.

Investments in the six months are in line with the annual investment target.

International investments include the acquisition of the 1.64% stake in Transportadora de gas del Perú (TgP), increasing our stake from 24.34% to 25.98%, for a total of US\$31.9 Mn. The increased stake will begin contributing to Enagás's figures in April.

Also included under the 1H2016 international investments, are the ongoing investments in GSP and TAP.

In addition, Enagás signed two new agreements to reinforce its holdings in assets where the company already has stakes and plays an important role as industrial partner, paving the way for further growth in both, earnings and dividends.

On 9 and 29 June 2016, Enagás signed two agreements to **raise its stake in GNL Quintero, from the current 20.4% to 60.4%**. The agreements will be executed in two stages, each entailing shares representing a 20% stake, implying the acquisition of an additional 40% of GNL Quintero from Endesa Chile and Metrogas for a total of **US\$400 Mn**.

The deal, providing the other shareholders do not exercise their pre-emptive acquisition rights, would be recognised in Enagás's results for 4Q16, when the acquisition is expected to become effective.

In Spain, on 29 June 2016, Enagás signed an agreement to acquire **an additional** 42.5% stake of the Planta de Regasificación de Sagunto (SAGGAS) from Unión Fenosa Gas, increasing its shareholding from 30% to 72.5%, for €106 Mn.

If the acquisition goes through, SAGGAS would begin contributing to Enagás's figures upon completion of the purchase, tentatively in the fourth quarter of 2016.

The two operations fit into both the company's core business and its profitability and debt targets. However, both are subject to typical conditions in these types of transactions, so **payment is not included in the 1H16 investment figures**.

Net Debt

At 30 June 2016, the Company's **net financial debt** stood at €**4,041.2 Mn, compared with** €**4,**237 Mn at 31 December 2015.

This represents a **Net Debt/EBITDA ratio** (last 12 months) **adjusted by dividends** from subsidiaries of 4.2x and an FFO (last 12 months)/Net debt ratio of 17.6%.

At 30 June 2016, 85% of the net debt had been issued in euros, 13% in dollars and 2% in Swedish krona. In addition, 32% is institutional debt, 66% is issued in the capital markets and the remaining 2% is commercial paper.

At 30 June 2016, over 80% of Enagás's net debt is at fixed rates.

The **average net cost of debt** was **2.3%**, compared with 3.0% at 30 June 2015.

In terms of **available financing**, as of 30 June 2016, the Company had liquidity of €2,857 Mn, sufficient to enable us to move forward and achieve our strategic objectives.

In May, Enagás successfully carried out a €750 Mn bond issue with an annual coupon of 1.375%, one of the lowest coupons of any Spanish issuer and European utilities issuer for a 12-year paper. This transaction enabled us to extend the average maturity of debt to 7.3 years and optimise the maturity profile.

Meanwhile, **cash** at 30 June 2016 amounted to **€956 Mn**, more than enough to meet the €468 Mn bond that matures in 2017.

OPERATING HIGHLIGHTS

Demand

Domestic gas demand in 1H16 reached **158.9 TWh**, down 1.3% year-on-year due mainly due to lower demand for gas for power generation resulting from increased hydroelectric generation.

It is worth noting that **industrial demand**, which represents over half of consumption in Spain, remained robust, **growing by 2% compared to the first half of 2015**.

The trend of industrial demand is consistent with the performance of the Spanish economy and forecasts for Spanish GDP for year-end 2016.
