Highlights

- **:** The results obtained as of 30th September 2018 are in line to achieve the targets for the year.
- Net profit at 30th September 2018 stood at €325.7 million, reflecting a +1% growth without including the accounting effect from reappraising GNL Quintero in the first half of 2017. The contribution of affiliates at 30 September 2018 rose to 20.0% of the net profit, higher than the 12.9% recorded in the same period of 2017.
- Accumulated Operating Cash Flow (OCF) at 30th September 2018 was €710.2 million. This is a slight decrease in the figure obtained in the same period of 2017, mainly because of a different accrual of dividends received from affiliates. The €54.1 million obtained from investee companies at 30 September 2018 are in line with the year's target of approximately €100 million (this target would rise to approximately €120 million when including the dividends of GNL Quintero).
- **:** Net investments as of 30th September 2018 were €153.6 million. The largest investment is €112.6 million in TAP. Investment in Spain amounted to €34.3 million.
- Comparison of the term of term of the term of term of the term of term of
- The Company's net financial debt September 30, 2018 is €4,659 million, which represents a reduction of €349 million compared to the €5,008 million recorded at the end of 2017. This amount includes €639 million associated with the net debt accounted for in GNL Quintero as of 30th September 2018.
- The net cost of stand-alone debt at the end of the third quarter of 2018 stands at 2.2%. If we factor in the impact of the consolidation of GNL Quintero, the net average financial cost would be 2.7%. The stand alone FFO/Net Debt ratio improved with respect to the 17.1% recorded at the end of the third quarter of 2017 and as of 30th September 2018, stands at 17.5%.
- **Enagás and Fluxys announced on 3rd September 2018 have reached an agreement to sell jointly the total stake they hold in the Swedish TSO company Swedegas to First State Investment,** which owns part of the entire network of high pressure gas pipelines in Sweden.
- **The demand for natural gas** from the national market reached 251.6 TWh, **1.7%** higher than that one as of 30th September 2017.
- On 13th September 2018, in the latest published evaluation of the **Dow Jones** Sustainability Index World (DJSI), a world benchmark in terms of sustainability, Enagás has managed to stay in the index for the eleventh consecutive year, reaching the world leadership in the Oil & Gas Storage & Industry Transportation with 85 points out of 100 and achieving leadership in 11 of the 19 areas analysed.

Minority interests	-11.0	-15.5	41.1%
Net profit	375.7	325.7	-13.3%

Operating income

Total revenue as of 30th September 2018 is €1,012.5 million, virtually in line with the figures obtained in the same period of 2017, since the lower contribution of regulated revenue was partly offset by non-recurring other operating income and the effect of IFRS 15.

Operating expenses

Operating expenses at the end of the third quarter of 2018 stood at \in -278.6 million, lower than the \in -284.0 million recorded in the same period of the previous year, which represents a **decrease of -1.9%**. This operational improvement is a result of the application of efficiency policies and control of operating expenses and the effect of a different scheduling compared to the same period of 2017.

EBITDA

EBITDA as of 30th September 2018 was €804.4 million, higher than the €794.2 million obtained in the same period of 2017, which represents an **increase of + 1.3%**.

This positive performance of EBITDA is a result of the improved operating trend mentioned above and contribution to the result of investee companies.

As of 30th September 2018, profit from investee companies was €70.5 million, higher than the €56.5 million obtained in the same period of 2017, which represents an increase of 24.9%.

The EBITDA at the end of the third quarter is in line with the annual EBITDA target of \leq 1,073 million by then end of 2018.

Affiliate business contribution	3Q2017	3Q2018	Var.
Brownfield contribution to EBITDA	60.7	73.0	+20.2%
Greenfield contribution to EBITDA	-4.2	-2.5	+48.0%
Contribution to EBITDA from Investees	56.5	70.5	+24.0%
PPA depreciation	-18.5	-17.0	+8.1%
Contribution to net profit	38.0	53.5	+40.8%
GNL Quintero and Affiliates contribution to Net Profit	12.9%	20.0%	

Amortization of fixed assets

Amortization of fixed assets have increased by 4.4% to **€251.4 million**, higher than the €240.9 million provided until the third quarter of 2017. As already reported in the results for the first quarter, the "depreciation" heading includes the effect of the valuation of certain assets that have been reclassified as "non-current assets held for sale".

Thus, **EBIT** as of 30th September 2018 was **€536.0 million**, **0.2%** higher than the figure from the third quarter of 2017.

Financial result

The **financial result** obtained as of 30^{th} September 2018 recorded a **negative balance of €98.5 million**, higher than the negative financial result of €50.9 million recorded in the same period of 2017.

The result as of 30 th September 2017 included the positive accounting effects derived from the consolidation of GNL Quintero for €52.4 million.

Excluding this effect, the financial result would have improved by 4.6% due to the lower volume of debt and the improvement in the average net cost of debt of 2.7% (2.2% stand alone) registered at the end of the third quarter of 2018 vs. 2.8% (2.3% stand alone) in 2017.

Net profit

Net profit as of 30th **September 2018 was €325.7 million**, lower than that obtained in the same period of 2017, which included the effect of the consolidation of GNL Quintero in 2017. **Without taking into account these accounting effects**, net profit **would increase by +1.0%**, in line with the expected growth for the whole year.

The contribution of affiliates at 30th September 2018 was 20.0% of the net profit, higher than the 12.9% registered in the third quarter of 2017.

Funds from Operations

FFO (Funds from Operations) as of 30th September 2018 was €617.5 million. This figure is -12.6% lower than in the same period of 2017 due to the effect of the calendarisation of dividends collected from our affiliates in both periods, which has been partially offset by a higher EBITDA contribution and lower interest payments.

Investments

Net investments as of 30th September 2018 were €153.6 million. Of this, €34.3 million correspond to investments in Spain and €119.3 million to net investments outside Spain. In international investments, the investment in TAP (Trans Adriatic Pipeline) stands at €112.6 million.

Free cash flow

Accumulated Free Cash Flow (FCF) at 30th September 2018 was €556.7 million. This figure is **+16.2% higher than the figure reported in the same period of 2017**.

Net Debt

At the end of the first nine months of the year, **stand-alone net debt stood at €4,021 million**, compared to the €4,364 million reported at the end of 2017.

If we include the net debt of GNL Quintero, €639 million, the consolidated net debt was €4,659 million at the end of the third quarter of 2018, lower than the €5,008 million recorded as of 31^{th} December 2017 and which represents a reduction of €349 million.

The debt ratio of **Net Debt/EBITDA** adjusted by the dividends of our subsidiaries at the end of the **third quarter of 2018 is 4.3x**, **lower than the 4.8x recorded in the third quarter of 2017.**

The **FFO/Net Debt** ratio recorded at the end of the third quarter of 2018 was **16.8%** higher than the 16.2% recorded in the same period of 2017.

As of 30th September 2018, 22% is institutional debt, 68% was issued on the capital markets and the remaining 10% is commercial paper. 76% of the debt accounted for is issued in euros, 22% in USD and 2% in Swedish krona.

Over 80% of debt at Enagás is arranged at a fixed rate without any significant maturities to occur until 2022.

In their 2018 annual reviews, ratings agencies **S&P** and **Fitch** reaffirmed Enagás' **A-** rating.

OPERATING HIGHLIGHTS

Demand

The national demand for natural gas at the end of the third quarter of 2018 grew by +1.7% compared to 2017, reaching 251.6 TWh.

The industrial and domestic-commercial demand of natural gas, which represented about 85% of the total demand at the end of the third quarter of 2018, has registered an increase of 6.0% compared to the same period of 2017, which highlights the positive performance of the Spanish economy.

The demand for natural gas for power generation has decreased -15.4% due to a greater generation of electricity from renewable sources.

The consumption of natural gas in homes, businesses and SMEs increased compared to the first nine months of 2017 due to colder temperatures in February and March, the good performance of the Spanish economy and the addition of new customers.

SIGNIFICANT EVENTS

For the purposes of Article 17 of Regulation (EU) No 596/2014 on market abuse and Article 228 of the Revised Text of the Spanish Securities Market Act, enacted by Royal Legislative Decree 4/2015, of 23 October, Enagás promptly publishes and discloses all relevant corporate information to the market in accordance with applicable regulations. Enagás also sends the Comisión Nacional del Mercado de Valores (CNMV) (National Securities Market Commission) this information so that it may be entered in the relevant official registry.

These communications are available on the CNMV website (<u>www.cnmv.es</u>) in the Relevant Facts section. As well as on the company's website (<u>www.enagas.es</u>) in the General Information/Relevant Facts section.

Enagás guarantees that the accompanying texts relating to Relevant Facts from 2005 onward are exactly the same as those sent to and disclosed by the CNMV.
