Enagas signs a Protocol of Collaboration with the EIB (European Investment Bank)

- . This transaction forms part of the Business Plan presented by the Company, which foresees significant investments for the following years.**

Enagas has signed a long term collaboration protocol with the European Investment Bank, in which the Company expresses its interest in having the European institution participating in the financing of its investment projects for the following years.

Likewise, the EIB shows its disposition to evaluate and consider the financing of those investments projects proposed by Enagas.

The building of new gas infrastructure and the expansion of the existing ones are necessary to meet the rapid rise in the demand for natural gas in Spain, which is forecasted to increase annually by more than 10% in next years.

According to the subscribed "Memorandum of Principles", the Bank and Enagas's management are working together in the analysis and selection of the investment projects, with the intention to sign a long term financing contract in very competitive market conditions.
