#### **Operating revenue**

Regulated revenues at September 30, amounted to €701.5 M, -0.4% year-on-year.

**Regulated revenues** are reduced due to the implementation of the 2021-2026 regulatory framework, although the regulatory impact has been offset by the remuneration of audited expenses ( $\sim \in 30$  M).

#### Other income amounted to 13.4 million euros.

#### **Operating expenses**

Enagás has intensified its efficiency plan to minimise the impact of inflation on the Company's manageable costs.

**Operating expenses at the end of the first nine months of 2022** amounted to -€263.6 M.

It is worth noting that the **other operating expenses** line, as mentioned in the Operating income heading, reflects the increase in audited costs of  $\sim \in 30$  M, mainly electricity and CO<sub>2</sub> costs.

**Personnel expenses** increased by +10.5% to  $\leq 105.6$  M. This increase is mainly due to a non-recurring effect of severance payments (~ $\leq 10$  M).

It is also important to highlight the greater activity of the Company in 2022 compared to the first nine months of 2021, still affected by Covid 19.

Net of these effects, standardised operating expenses would increase by 3.5% compared to the same period last year, below current inflation levels.

#### **Results from affiliates**

The **contribution from affiliates** amounted to **€153.9 M**, as a result of the good performance of affiliates, mainly TGP, Saggas and TAP (due to a non-recurring negative adjustment included in 2021).

In addition, upon announcement of the sale of the stake in Gasoducto de Morelos, as of December 2021, this company is recorded as an "asset held for sale" and, therefore, its contribution is not consolidated. On the other hand, the stake in GNL Quintero has been recorded as "asset held for sale" from the announcement of its sale in March 2022 until July 21, the effective date of its sale.

In the first quarter of 2021, Tallgrass' contribution included a non-recurring result of  $\in$ 9 M mainly due to the extreme cold snap in February, with a positive impact on the contracting of Tallgrass infrastructure.

#### **EBITDA**

**EBITDA** at September 30, 2022 reached **€605.1** M.

EBITDA adjusted for dividends at September 30, amounted to €570.0 M, in line with the €740 M target communicated by the company in its Strategic Plan.

#### Provisions for amortisation of fixed assets

Amortisation of fixed assets increased by +3.2% compared to the same period of the previous year.

The PPA (purchase price allocation) amortisation line is in line with 2021.

#### **Financial result**

**The financial result** as of September 30, 2022 amounted to  $\in$ 104.5 M and includes the following non-recurring impacts:

- The gross capital gain from the sale of GNL Quintero (+€249 M).
- The net capital gain from the sale of 30% of Enagás Renovable (+€50.4 M).
- The impairment of Tallgrass Energy, amounting to -€133.8 M.

The financial cost of debt at September 30, 2022 was 1.7%, in line with the financial cost of the first nine months of 2021.

Additionally, a tax is expected to be recorded during the fourth quarter of the year associated with the repatriation of cash for an amount of 44 million euros, as a result of the process of selling GNL Quintero.

#### Corporate income tax

Taxes amount to €118.4 M.

Corporate income tax reflects -€67 M associated with the sale process of GNL Quintero, booked in the third quarter of the year.

#### Net profit

**Net profit** as at September 30, 2022 **amounts to €353.4 M**. It is in line to achieve the annual net profit target communicated by the Company in its 2022-2030 Strategic Plan.
