

TECHNICAL WORKSHOP

Ensuring the integrity of hydrogen pipelines

October 30th, 2025

11:30 – 12:45

AGENDA

11:30 Opening (5')

- Coordinator, **Hydrogen Technology Observatory**,
Igor Pagazaurtundua

11:35 Technical solutions for hydrogen and repurposed natural gas pipelines. The vision of OEM, asset operator and research centre (45')

- Principal Engineer - Asset Integrity Management Lead EU, **Rosen**,
Óscar Ruiz
- Material Engineer, **Fluxys** – Vice President of EPRG, **Paul Roovers**
- Senior Researcher, **Tecnalia** - Associate Professor in Structural Integrity at University of Bristol (UK), **PhD. Nicolás Larrosa**

Moderator: Network Technical Services Manager, **Snam**, **Luca Bacchi**

12:20 H2BIDEA project: challenges in distribution with 100% hydrogen infrastructures (15')

- Chief Strategy Officer, **Nortegas**, **Izaskun Gorostiaga**

12:35 Highlights and closing (10')

- Director of Technical and Technological Services, **Enagás**,
Claudio Rodríguez

The workshop will be held in English and streamed live
