

## **August 2019: monthly capacity product auctions underground storage**

According to the unloading ships forecasts and the level of the regasification tanks for the next months, and in order to be able to receive all the ships expected in the Spanish gas system, the monthly capacity product of August will be auctioned several times during the month of July.

The days of the august UGS auctions will be:

**Monday 15th of july at 9:00h**

**Monday 22th of july at 9:00h**

**Monday 29th of july at 09:00h**

The auction mechanism will be the establish in "*Resolución de 30 de marzo de 2017, de la Secretaría de Estado de Energía, por la que se establece el procedimiento de asignación de capacidad de los almacenamientos subterráneos básicos, así como los derechos de inyección y extracción*".

For the calculation of August injection rights of each user, the addition of the capacities assigned in all the auctions will be considered.
