

Warning of low temperatures

The State Meteorological Agency (AEMET) announces a decrease in temperatures **from 25 to 29 November**.

The predicted temperatures result in **extraordinary demand increase** with respect to the expected values under normal conditions of **560 GWh** depending on the temperature predictions evolution in the period **from November 25 to 29**. The current stock level in LNG tanks allow to meet this extraordinary demand.

Thermogram with temperature alarms is attached.
