

Operation Note nº3/2023- February 9 2023 (initial)

EXCEPTIONAL OPERATING SITUATION – ZERO LEVEL– UNAVAILABILITY OF EUSKADOUR COMPRESSOR STATION

On February 8, 2023, an incident occurred in the electrical transformers that feed the motor compressors of the Euskadour compression station. As a consequence, the facility is unavailable.

From gas day February 10, 2023 and until the facility is repaired, the interconnection capacity through VIP Pirineos, in both directions, will be updated to 195 GWh/day, which supposes a restriction of the nominal capacity.

Thus, **the Technical Manager of the System declares an Exceptional Operation Situation level ZERO (SOE-0) in accordance with section 10.6 of the NGTS**

Demand gas supply has been guaranteed at all times.
