

Operation note n°4/2025 – October 3rd, 2025 - Start

EXCEPTIONAL OPERATING SITUATION

Local and temporary limitation of transport in the Castellón 16" Branch and Castellón Branch duplication 16"

Due to the works related to the execution of the variant in the Castellón 16" Branch and Castellón Branch duplication 16", included in the Maintenance Plan published by GTS for 2025, the owner of said branch has informed the Gas System Technical Manager of the need to maintain specific flow and pressure conditions for 7 hours, in order to carry out the works under optimal safety conditions.

These flow and pressure conditions entail a local and temporary limitation of transport in said branch, specifically:

Start date and time of the limitation: October 8th, 2025, at 10 am.

Position affected by the limitation: Position 15.09A.3.

In view of the above, and in accordance with the provisions of Chapter 5.6 "Medidas a adoptar en SOE" of "Orden TED 181/2025" of February 13th, approving the Technical Management Rules of the Gas System under ministerial competence, from the start of the limitation and until its completion -which will be duly notified through the publication of an Operation Note- **the booking of additional capacity beyond the delivery commitments of customers connected to said position shall be restricted, as well as their consumption, which must cease during the hours in which the limitation remains active.** Supply to protected customers is guaranteed and will not be affected by this limitation.

These measures have been taken in coordination with the stakeholders involved and the Electricity System Operator.
