2014**

11th February 2014

1 Notification of Short-Term Capacity allocation from 1st April 2014 to 30th September 2014.

TIGF and Enagás are pleased to announce that the capacity offered through the coordinated 2014 Open Subscription Period for Short-Term Capacities at the interconnection point of Larrau between Spain and France has been subscribed according to “*Procedures for the commercialisation of existing and committed capacity at the cross border point of Larrau between France and Spain*”.

The final allocation from France to Spain is detailed in the following table:

Table 1: Capacities offered, requested and allocated through the 2014 OSP STC. Direction from France to Spain

In the direction France to Spain, demand during the First Phase was robust representing 128% of the capacity offered.

During the Second Phase, a lot of capacities from France to Spain were freed up by shippers, which chose option 3; therefore, according to OSP procedures, the results in the Second Phase dropped to only 28% of the capacities available.
